Point of Departure - Four Arrows - 2014-06-01

Point of Departure offers a provocative metacognitive and transformational learning strategy for human surviving and thriving. Using five foundational and interactive Indigenous worldviews beliefs that contrast sharply with our dominant worldviews, everyone can reclaim the original instructions for living on Earth. Without the resulting change in consciousness that can emerge from this learning approach, no modern technologies can save us. The five foundational Indigenous precepts relate to a radically different understanding about: (1) Trance-based learning and the importance of the Trickster figure; (2) The Native American Urantia or the Verbal Justinian; (3) Atomic Energy; (4) Sacrifice Communications; (5) Nature as the Ultimate Teacher Praise for Point of Departure: Four Arrows provides a quintessential critique of how the collective human departure of modern society from “Indigenous Consciousness” has led to the current wholesale exploitation and destruction of “Indigenous Nature” while providing the impetus for the urgency of a renaissance in our relationship with Mother Earth. – Corey A. DeAngelis - 2020-10-07

Four Arrows walks the reader through trance-based, Transformative learning; courage, Indian STYLE, as connection - not fear-based; and the Indigenous grammar of communication and truth-telling, with neither restricted to human beings. From the first page to the last, Four Arrows challenges each reader to find the issues that matter to us relative to humanity. With the handy “takeaway” discussions and “how’s” manuals continuing each discussion the reader into the circle, if only the reader is willing. – Barbara Alice Mann Associate Professor of Humanities, University of Toledo.
